## Watchdog No Help As Burglars Work

Gilbert W. Thompson, 10453 Fairhill dr., Spring Valley, employed at the A & P Tea Co., reported to the Sheriff's office, that between 10:30 p.m. Oct. 10, and 7:30 a.m. Oct. 11, someone entered his unlocked residence while the family were asleep and removed from the divan in the living room, Mrs. Thompson's purse, and wallet, then rifled the bureau drawers. Because the house bulldog did not make any sound when the intruder entered, Mr. Thompson believes it must have been a person in the neighborhood the dog knew.

### YOUNG GIRLS ACCOSTED

A 14-year-old Lemon Grove girl and her friend 13-years-old, also of Lemon Grove, were accosted by a middle-aged man in the vicinity of Olive and North Avenue in Lemon Grove, at 8 p.m. Oct. 10. They were accosted by the man from his automobile as they were walking along. The girls said he followed them around the street in the car until they reached their home and they ran into the house.

Their mother contacted the Lemon Grove Sheriff's station and reported that the same thing happened to the girls about a month before.

### PROWLERS FORGIVEN

It will be held at 3849 Shirlene place, Lemon Grove, according to one of the co-chairmen, Mrs. Dorothy Jagosz. She said that proceeds will go into the Auxiliary's general relief fund. Among things for sale will be clothing, dishes, small furniture and miscellaneous items. HO 6-6524 may be called for information.

admitted they had made several sorties in the evening before and had raided from 10 to 12 cars each time. The parents offered to make restitution, but the several victims stated the articles taken were of small value and they would not prosecute.

### ROCK HITS WINDSHIELD

L. S. Chavez, 150 No. Ivory El Cajon, narrowly escaped serious injury when a Lemon Grove youngster tossed a rock from the Lemon Grove overpass on Highway 94, which hit his automobile that was traveling west. The force of the rock, tossed about 5:30 p.m. or Oct. 12, was such that it completely shattered the windshield of Chavez' International '58 Pickup.

### FORWARD PASS

Jack Mashin, coach at Cal Western who owns a house at 763 Concepcion Avenue, Spring Valley, is still seeking the party who has been throwing rocks into the windows of the house during the past two weeks.

### SEVEN SCREENS CUT

Mrs. Olga Yetter, after having had her house entered twice in the past few weeks, decided to ask assistance from the County Sheriff's Department as a result of the latest intrusion the afternoon of October 13, when seven screens were cut in the attempt to gain entry into her home at 9002 Harness Rd., Spring Valley.

The seventh screen opened up entrance to an unlocked window, through which the marauders climbed into the bedroom pulling out the clothes from the dressers and scattering them about. Three weeks ago someone took a necklace, earrings and two watches and a week later a money jar containing \$4 in change.

### BIKE GONE

David Joseph Eckenboy, 9025 Kenwood dr., Spring Valley, a student at Mt. Miguel reported that his bicycle was taken from the bike rack in the school parking area the afternoon of Oct. 13. It was a 26 inch boy's J. C. Higgins.

The helium filled balloons lifted the ribbon skyward and business at the center got underway.

## Coordinating Council Eyes Incorporation As Means To Fall-Out Shelters

The L.G. Coordinating Council began a two-pronged attack on the problems attendant to fallout shelters Monday night at the regular monthly meeting.

Dr. Dennis McLaughlin, president of the council, named two "action committees" to provide information and plans for the "most expedient" development of a fall-out shelter program.

The Council had already gone on record as planning a fallout shelter district under provisions of the states' 1911 Improvement Act but members voted at Monday's meeting to explore incorporation of the community as a means of providing a local government to handle such a project. Funds from other than

local property would be available under incorporation, it was pointed out.

A council representing either a formal district or representing a city would be needed to handle state or federal funds, supplies and equipment, and civil defense information, it was decided.

Robert Waltemeyer of Monterey Heights was named to head the committee for the district's formation. Attorney Frank Armstrong was appointed

to head the incorporation committee.

In other business, the Council complained about the lack of activity on the "brown spot" park at Washington and Mt. Vernon sts. but no action was suggested for nudging the county parks department. Council by-laws were amended to spell out more clearly the organization's operation.

The next meeting will be held November 20 at the usual meeting place; L.G. junior high school.

## YANKEE DOODLE PICKIN'S DANDY

Friday the thirteenth opened inauspiciously for the owner of the Yankee Doodle Bar at 9847 Campo Rd., Spring Valley. Between the hours of 2 a.m. when the Bar closed until it opened at 5:45 a.m. on the fatal day, an unknown took his leisurely time to pry open the coin boxes in five juke box machines, the cigarette and bowling machines, taking the money and also several boxes of cigarettes of different brands. They also found \$22 from a closet in the cabinet below the cash register.

A witness living on Bonita street behind the Bar, told the sheriff's officers that he arose at 5:45 a.m. that morning and observed approximately 10 to 15 packs of miscellaneous cigarettes scattered from the back of the building to Bonita street, heading south. Entrance was accomplished by breaking a glass panel in the rear door.

### An Important Community Issue

This week the L.G. chamber of commerce is polling the community's leaders on the question of incorporation. On a self-addressed, stamped post card, the recipient is asked to make known his opinion by making a check mark in the appropriate place and to return the unsigned card before October 27.

Edwin Koester, chamber manager, said that the poll was simply for taking the pulse of the community in light of today's needs.

He said he is aware that the issue came to vote on two other occasions and in each instance it was defeated by a few hundred votes. In each instance, formidable opposition was mounted by a single group, but on the other hand, each time the issue came to vote, it was proposed by, generally, a single group.

In addition, an election to form a recreation district was voted down, and earlier this month the bond issue for a junior college was defeated.

This brings up reasonable questions. What is the matter with us? Do we need none of these things? Are the proponents of a more orderly community a group of idiots?

Certainly we should reject ungood things. But the responsibility for approving the things needed for our well-being is even more important.

Wrong as it may be, the doers get the criticism while the obstructors sit back and carp undefiled, because it is the doers who must prove over and again that their propositions are right.

This may be democratic... but it ain't right.

### H-Bomb Information Needed

The federal government is charged with the responsibility of doing what the people of the various states cannot do for themselves... and bomb fall-out protection information is certainly a clear-cut need.

Instead of getting involved in such strictly local problems as schools, the government could, and should, turn its attention and energy toward giving guidance on the problem that is troubling more parents than any other matter in the world.

For all the money that has been spent on "civil defense" in the past, it is now acknowledged that everything that was done or said before has been wrong, and the effort of course, (Continued on Page 3)

## Grove Man Robbed Of \$5,000 At C.G. Shopping Center

A Lemon Grove man, assistant manager of the J. J. Newberry Co. store at College Grove, was the victim of two hold-up men Monday afternoon. The man, John W. Martin of 3244 Buena Vista st., was robbed of \$5,242 in cash and checks as he was on his way to the bank in the College Grove center to deposit weekend receipts.

One man approached Martin on the lower level and thrust a revolver into his stomach and said "This is a stickup - do as I tell you or I'll drill you."

The man grabbed the deposit

sack and made Martin turn around just as the robber's accomplice pulled up to the scene in an auto. The robber jumped into the car and sped south. Martin obtained the license number which proved to be that of a car stolen earlier in the day at the Mission Valley shopping center. It was found abandoned in the College Grove center's parking lot.

The bag Martin carried contained \$3,542 in cash and \$1,700 in checks. The robber over-looked an envelope Martin held in his hand containing \$175.

## Cafe Operator Sued For \$100,000 Here

Henry Goldy, operator of L.G. cafes for the past 10 years, became the subject of a suit this week for \$100,000 for refusing to relinquish the firm name "Alladin Catering Co." to Goldy Enterprises when he sold out in July.

The purchase was made by Henry Goldy's brother William who is presently operating Michael's at 7828 Broadway in Lemon Grove. At the time of the sale, Henry Goldy was operating El Morocco at Broadway and Kempf sts., also in Lemon Grove.

Henry Goldy had sold Michael's to Joseph Papitto about three years ago. Papitto closed the cafe earlier this year.

William Goldy planned to reopen Michael's with Henry Goldy as general manager, a part of the agreement being the purchase of the equipment of the Alladin Catering Co. Henry Goldy said.

Henry Goldy was manager of Michael's for six weeks prior to the opening but became too ill to work on opening day, he

added. Henry Goldy later recuperated and purchased a cafe in San Diego which he now operates.

William Goldy charges in his suit that Henry Goldy refused to honor the contract and that he refused to relinquish the name of the catering firm.

Henry Goldy said that a contract was never signed and that the agreement was for the purchase of the business as part of the consideration of his management.

### FHA MAKES FIRST FALLOUT SHELTER LOAN

The San Diego insuring office of the FHA has issued a commitment to insure the first loan for a fallout shelter in California under the FHA's new long term low interest home improvement program 203(k). This is believed to be the first commitment on a Fallout Shelter in the United States. San Diego Director Faye Hartman announced that the office had approved the application for the insurance on the loan for \$4,550 to Mr. and Mrs. Rex S. Hydon of 3061 Martindale Court in San Diego.

### INCOME TAX RETURN PROCEDURE SIMPLIFIED

In an effort to improve individual income tax returns and make the instructions more meaningful, U. S. Commissioner of Internal Revenue Mortimer M. Caplin has announced. Individual taxpayers who are required to file 1961 income tax returns will have two forms to choose from instead of three.

### Four Couples Licensed To Wed

Marriage licenses were issued during the past week to couples of this area:

Lyle A. Massingale, 26, and Ruth Ann Williams, 1707 Madison st., L.G.

David R. Vasquez, 17, of National City and Linda May Jacome, 16, 7210 Carmanita rd., L.G.

Merle Francis Prax, 24, and Nancy Ellen Hopper, 8175 Palm st., L.G.

### GET-ACQUAINTED MEETING SCHEDULED BY C de O PTA

Sixth grade parents will serve as hosts at a meeting sponsored by the Casa de Oro Elementary School PTA tonight for the purpose of getting parents and teachers acquainted with each other.

**HEART DISPLAY HERE** — An interesting and informative display has been installed by the San Diego County Heart Assn. in the lobby of the United States National Bank, 7946 Broadway in Lemon Grove. Included in the display are a cut-away model of the human heart and a model of the human body showing the circulatory system.

Holding up free brochures available to the public are (l to r) R. P. Dryden, bank manager, and Vivian Peterson, daughter of Mrs. Rosemary Peterson (right), president of the Lemon Grove Woman's Club Juniors. Her organization is active in work for the Association. The display contains free brochures, one of them devoted to children's heart ailments.

## C of C Poll To Test Opinion On L.G. Incorporation Try

A poll got under way this week seeking the answer to the question of whether or not Lemon Grove should again attempt incorporation.

The poll was devised by the L. G. Chamber of Commerce, 400 members and civic leaders are being asked to check one or two preferences listed on a postage-paid return post card.

The two choices read "I favor an incorporated community" and "I oppose an incorporated community." It is not necessary to sign the card to vote.

Explanatory material states that the chamber "is conducting

ing a poll of business firms, chamber members and citizen groups to ascertain if an incorporated city government will benefit our community.

"The chamber is not endorsing any move (for or against) incorporation. Rather, it is merely seeking an expression of current feeling on the subject."

Edwin Koester, chamber manager, said that the demand for a poll on incorporation came up at the last chamber board meeting.

At that time a general discussion produced the philosophy that the community can

not provide for itself through the county government, and that the business community was suffering because of lack of local authority to develop interest in the community through promotions such as the nearby shopping centers were able to mount.

The ailing financial condition of the chamber of commerce was made a case in point.

Koester said the poll is to be completed on October 27. Chamber members who failed to receive their ballot should contact Koester at the chamber office.

**STRUTTERS** — Linda Wilson, 7407 Central ave., and Darlene Anderson, 2814 Massachusetts, jointly display the form they'll use and the trophies they hope to take next week when local youngsters will compete for baton twirling honors.

The competition for the Pacific Southwest championship is being sponsored by La Salle Enterprise and Spears Ford and will be held at the La Salle parking strip at 7285 Broadway October 28 from 9 a.m. to 5 p.m. Beverly Miller, not shown, National Baton Twirling champion, will be guest of honor.

Ten classes of winners will be chosen, including junior and senior sweepstakes, in beginners, apprentice and intermediate categories. Entry blanks may be obtained from the two sponsoring firms. Promoter is Mrs. Pete Dreesen, of 7168 Jacmar, S.D. She is the former Carol Wilson who was Miss Lemon Grove a couple of years ago.

(Continued)

wasted and misleading. Evacuation plans and the shelter points in this area, are not functional. Nor have they ever been.

Even the most optimistic person admits that the evacuation routes could not be possibly used. There is no stockpiling of supplies of any sort anywhere in this general area.

Even those classified as "concentrated foods" and being gathered by the federal government and being housed near the point of manufacture and couldn't possibly serve the southern California populace from such great distances should the first nuclear device strike.

Bomb shelters being advertised now by contractors are no more than a tranquilizer for the problem. Most all inadequate and dangerous. Even a conventional bomb could knock out the southern California water supply so that most people would die from lack of water.

Most people want to do something to protect themselves and their families but government leadership is lacking. This in spite of the highly publicized Federal Director of Emergency Planning.

No one seems to want to guide and advise on proper action for fall-out protection. Even Dr. Teller, the father of the nuclear bomb, is in disagreement with other scientists as to the dangers of fall-out.

Fall-out districts, such as the one proposed in Lemon Grove are born of frustration. "We must do for ourselves what the federal government will not do for us," is the philosophy.

The government must give leadership in the matter of protection against fall-out poisoning else the local effort will be wasted because of ignorance, not because the desire to survive is missing.

## UNESCO Here, Like It Or Not

UNESCO, which at one time seemed to be one approach to getting democratic philosophy into the minds of youth of other countries, is no longer what it was once advertised to be.

Our concern has been answered by Congressman Jim Utt of this district. Utt said the UNESCO Treaty, recently submitted to the U. S. Congress, will not be ratified.

"However," he said, "the Executive Department of our government has a history of tacitly implementing these treaties even though they have not had formal ratification by the Senate. The fact that this is in direct conflict with our Constitution seems to be of little consequence."

"UNESCO is a brainchild of the United Nations without the benefit of clergy. It is nothing more or less than an organization created to be the mouthpiece of the Kremlin and shows its pro-communist bias in all of its activities and publications. Its official publication, 'The UNESCO Courier,' constantly carries the communist line with such a pronounced bias that even the less thoughtful reader should be able to discern its purpose. It constantly makes the charge of racism and anti-Semitism against the Free World but with a total failure to comment on racism or anti-Semitism in the communist world. It refers to the Nazi persecution of the Jews as if this were the accepted doctrine of the Free World but never refers to the persecution of minorities within the Russian state, which our intelligence indicates is rampant. Any Russian denial is simply a self-serving declaration and without foundation."

"Under the new UNESCO Treaty, which is referred to as a Convention, UNESCO proposes to take charge and direct all education of its member nations. Any and all violations of this treaty would subject the defendant local school board to prosecution in the International Court of Justice. Education in this country has always been a matter of local concern and control. This concept was given a substantial boost by Congress last week when it voted overwhelmingly against massive Federal aid to education. The UNESCO resolution has a most commendable title which is Convention Against Discrimination in Education. This is the sugar coating but, in the body of the treaty, UNESCO is given the right to make exceptions and to place restrictions on what it does not consider as constituting discrimination. UNESCO considers itself the only competent authority to determine what is and what is not discrimination. Its authority would invade not only the public schools of America but also all private schools," he concluded.

## HEIDICK COMMENDED

### UNITED TEAM

Your friends with the Pacific Telephone Company have already made their donations and have met the standard of giving and better to this years United Fund.

Many have offered their time now to visit other business for their gift to the team. We hope this year the United team will be a great success. And it will be, if everyone does his share.

Closed-circuit educational TV is a part of regular classroom for children in many schools today.

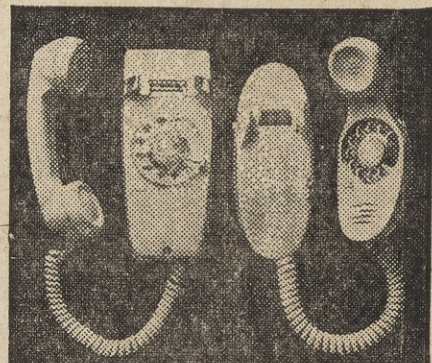

Telephone people help make this possible by providing special channels through which closed-circuit television is brought into classrooms.

Phone people offer many such communication services today. It's part of the job of meeting your communication needs and those

of schools, business and government.

These unusual-looking telephones were tried out in homes like yours last year. They were being tested as part of our research in developing new phones.

The families tried first one and then the other for several weeks, and then told us what they liked and didn't like. In this way they helped us learn what ideas you, our customers, would prefer in future telephones.

## Retiring Spring Valley Navy Man Receives Honors At Training Center

John E. (Jack) Kinnel, 62, of 9010 Campo rd., Spring Valley, was honored recently at the U. S. Naval Training Center, San Diego, on the occasion of his retirement, after 36 years in government service. He retired as a foreman in public works, having been at NTC since 1935 (except for service with the Sea Bees during 1943-46 in the South Pacific). Act ually Jack Kinnel helped to establish the training center as he was employed by the R Campbell Construction Co. in 1923, when that firm did the initial building. In those early days it was known as the U. S. Naval Training Station.

**JACK KINNEL**  
30 years with Government

**NATIVE OF COLORADO**  
A native of Colorado, Kinnel came to San Diego with his parents in 1912. He served a "hitch" in the Navy from 1918 '22. Following this he went to work in construction and worked for several local contractors until he received his appointment in civil service. He served under 10 different commanders at NTC during his years there.

Jack Kinnel, besides his interest in his civil service work has been quite active in Masonic work, having been the Worshipful Master of Normal Heights Lodge F and AM in 1947.

## 'Tricky' Bills Sent Local Business Firms.

Lemon Grove-Spring Valley business men are being blanketed by a combination order and statement for advertising in a west coast directory.

Cecil Candler, president of the Better Business Bureau has issued a warning that the mailings follow closely the solicitation made by the Yellow Page Directory of the Pacific Telephone Co.

The statements are made up to suggest that they might have come from the telephone company in that the same general format is followed. The bill appears to be uniformly \$28 a year and while the statement carry the legend "This form is not a telephone bill or any other bill—" it is still one of the trickiest of served here by the Bureau Candler said.

## Oscar's Drive-In At Spring Valley Is Colorful, Unique

The thirteenth of a chain of Oscar's Drive-In Restaurants is situated in Spring Valley Shopping Center, on the corner of Jamacha Blvd. and Sweetwater road. It is like the other Oscar's restaurants, colorful and unique. This chain of restaurants is unique in that it is entirely a San Diego product of the Food Maker Company, 3233 Kurtz st., San Diego, owners and originators of the style. Each one is different. Each one has its own personality and coloring suited to the district in which it is erected.

The Oscar's in South Spring Valley is managed by William Reynolds, a San Diego born and raised young man of 26 years. It has that welcoming look in its design of fuchsia and black. After an outdoor garden, one enters into a spacious dining room where one can sit, while waiting, alongside an indoor garden. On the walls are panels of colorful glass in the latest of mobile designs. The fountain counter is off the dining area adjacent to the kitchen.

The overall measurement of the building is 5250-square feet. The dining room is air conditioned and will seat 92 patrons. The outdoor drive-in service

has 47 booths. The kitchen is entirely stainless steel. There are two cooks and what they call a D.M.O., an all-around service man.

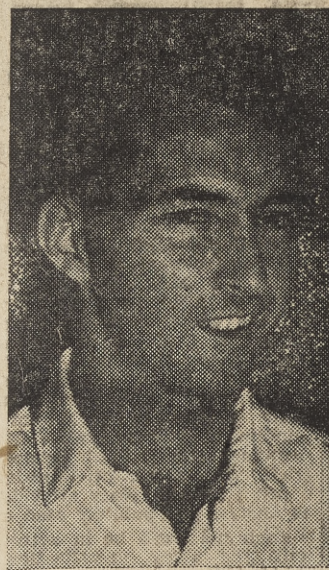

### SHRIMP FOR \$1

Specialties of the restaurant, says Manager Reynolds, are the one dollar shrimp and chicken dinners from Monday through Thursday. The hours are geared to serve the public a goodly portion of the 24 hours, being from 10 a.m. to 12 p.m. weekdays and 10 a.m. to 3 a.m. over the weekends.

Ed Shain, assistant manager also doubles as cook. There are five waitresses and four car hops and a fountain boy who works over the weekends.

Mr. Reynolds is married and has a son. The family lives in Santee at present. His church affiliation is the Asbury Methodist in East San Diego, which he has attended since boyhood. He received his education in San Diego schools, graduated from Hoover High School and then received a degree in accounting from Woodbury College in Los Angeles.

Asked how he became interested in the restaurant business when his interest was accounting, Reynolds said his brother-in-law, Ed Dube, who

**Bill Reynolds**

is manager of the El Cajon Oscar's, talked him into it. "It is interesting, can be profitable and at times is exciting," said Reynolds, "and not so confining. I do have a chance to get outside the building in the daytime now and then, which is not the case when one is tied to an accounting desk. I do not regret the change."

## MAIL BAG

Dear Editor:

I can't sit still any longer and wait for "George" to do it! I have been hoping that more people in Spring Valley would get seriously interested in our Teen and Pre-teen problems. Mr. Thomas, of your staff, has been interested in this problem and trying to get public support.

Our teens are in dire need of a Recreation Center, and sponsored activities. In our section of Spring Valley the La Presa Women's Club have been trying their best to help with teen dances once a month, but this is not enough.

I personally believe our teens need a chance to prove themselves. There is too much talk about juvenile delinquency, and not enough pride and confidence in our normal teenagers. Surveys have proved that where there is a place of recreation in which boys and girls can meet for supervised activities there is less vandalism and delinquency in the area. Give them a chance to do something for the community and watch them go. They have youth, intelligence, loyalty and unboundless energy. If these can be properly channeled we can all benefit.

Our Little League, Pony League, Pop Warner Football, and Scout programs are wonderful (we belong to them all), but not quite enough to meet the needs of all teen agers. All we need is a good sized building and a lot. I know that right off people will be saying, "Who's going to donate valuable property to a bunch of kids?" Why not? Isn't it cheaper in the long run for all concerned. Think about it and I'm sure your intelligence will tell you the reason.

The building can be small to begin with, enlarged later as funds are available. (This won't take long as more people are aroused and enthused over such a beneficial project). A Teen-Club can be formed, with 7th to 12th graders as officers. A Board of Advisors can be formed by parents, business people, ministers, etc. The girls and boys can make up the rules of conduct, subject to the board's approval. They can decorate, build, gather up furnishings, clean up, manage the dances, games, snack bar—in general they are the club and the club is them.

As far as upkeep expenses are concerned; dues, small admission to dances, snack bar

profits and money making schemes they are sure to come up with will take care of that. Women's Clubs, Kiwanis, etc. can furnish chaperones. The club could be open three nights a week for 7th and 8th graders, and three nights for ninth through 12th. Hours could be from 5:30 - 9:30 p.m. during the week.

Please, Mr. Editor, ask our parents to wake up and do something now! Surely there is someone who has property to lease (for \$100 a year), or to donate for such a worthy cause. Spring Valley is a wonderful and fast growing community, let's show our pride by getting behind our teens instead of criticizing them. No one can promise this project will completely wipe out delinquency, boredom and vandalism, but it would certainly cut it down to a minimum.

My husband and I will be willing to help or meet with anyone sincerely interested in starting such a project. Hopefully, Mrs. James Jordan Jr. 1543 Gowin St. Spring Valley, Calif.

Dear Editor:

As publicity chairman for the Lemon Grove Little League I am expressing my thanks for the cooperation and help you have given me this past little league season in writing and publishing the articles sent in to your newspaper. It is always a thrill for the boys to see their names "in print," not to mention the pride it brings to the parents of our Little Leaguers. We certainly do appreciate the space and headlines given our articles.

Sincerely, Mrs. Vera Graham 8135 Lincoln Publicity Chairman Lemon Grove Little League

Dear Editor:

We are newcomers to Spring Valley and are enjoying your newspaper, especially the Editorials and letters to the Editor.

We would like to reply to the letter of James A. King, pastor of the Foothills Methodist Church. We are deeply disappointed in his attitude. It is true that General Walker's only "crime" has been in exposing the atheistic Communist conspiracy. General Walker is a fine patriotic American and it is a National disgrace the way he has been treated.

## Jr. College Daily Attendance To Be 950

President John S. Hansen of Grossmont College reported to the Board of Trustees of the Grossmont Junior College District on Monday evening that enrollment at Grossmont College exceeded that of three recently formed California junior colleges. Estimated average daily attendance will be 950 compared to Cabrillo, 443; Cerritos, 577; and Foothills, 752.

Hansen's report also showed that Grossmont College teachers had 486 student contact hours per week which is about average for state junior colleges. However, the Grossmont faculty has four preparations per teacher which is considerably above that for the larger colleges in California.

Earlier estimates had indicated 790 average daily attendance for the first year with a per student cost of \$725. The new estimate will result in the current operational cost estimate to be reduced to \$603.

The Board approved the Griffin as the symbol, which had been selected by the Grossmont College student body and requested that a report be made on the problems of participating in junior college athletics for next year and submitted at the October 23 meeting.

The administration was directed to explore the legality of a variation in progress payments for services rendered by the architect.

### HUSTLE, BUSTLE, THE CARNIVAL'S COMING

The night of October 31 is a happy night for all. To the children it means the annual school carnival where they can have fun and win prizes. To the adults it means they too can have fun at the carnival without the worry of mischief makers who could make Halloween a torment, because these carnivals keep the kids busy. To PTA members, it means a money making event, but most important, to the Carnival chairmen, it means the next day they can relax after several months of hard and constant work. At Avondale, Penny Brady and Lois Larsen are the Carnival chairmen. Since the beginning of school they have been sewing, cutting out patterns, buying prizes, planning menus, holding meetings, getting lumber, stuffing animals, planning decorations and special events. Their biggest job is, of course, recruiting help, for naturally this is volunteer help. When they finish all the work, planning and coordinating that goes into this job, they would qualify for many positions in the business world, yet when you even suggest to these "ordinary" housewives that they have any special talents, they just laugh.

Help these women at your schools, for everyone can learn a great deal just by watching them in action.

### AVONDALE CAFETERIA OPENS SOON

On October 23, Mrs. Goodman, manager of Avondale's new cafeteria will serve hot lunches for the first time to Avondale students. How fortunate this lovely room was ready in time to shield the children who bring their lunch to school during the recent hot spell.

### NEED HELP?

**ASK A BUSY PERSON**  
Have you ever noticed that the busier a person is, the more time they have to help others? Take Shirley Littrell. She's president of the Rancho PTA, treasurer for the Spring Valley Little League, worked hard for the recent School Bond and Tax election and works with a brownie group. Mary Skinner is president of the Bancroft PTA, is historian for Mt. Helix council and 4th vice president for the Spring Valley Welfare. These ladies also take good care of their home and families, and I'm

sure have interesting hobbies yet ask them for help and they never turn you down.

### CALENDAR OF COMING EVENTS

If you think you're living in a sleepy community, take note of these coming events. Oct. 27—Spring Valley Little League dance. Oct. 28—Spring Valley Pony League cake bake sale. Oct. 30—pot luck dinner at the Spring Valley Chamber of Commerce. Oct. 31—School Halloween Carnivals. Nov. 4—Spring Valley Parade. Nov. 11—Bicycle Safety Tests at Avondale School. Nov. 21—Avondale PTA meeting. November 22—Sixth grade students from Juan Alessio School No. 2 will visit Avondale.

### SKUNK BITES THE DUST

Last week Sylvia Gapp of 1643 Polkestone st. noticed an animal digging a hole to get into her back yard greenhouse. It didn't take too close an inspection to find out it was a skunk. She called the sheriff after trying to chase the animal out with a stream of water. The sheriff arrived and told her to continue this treatment, but it was to no avail so she let him have it in another way, (the skunk, not the sheriff). After he left, (the Sheriff, not the Skunk), she brought out her rifle and downed the intruder with one shot. Several hours later, after the smell and the shock wore off, we were able to tell her how proud we were of her.

# Around Our Valley:

News and Views from Spring Valley  
By Tommy Thomas

The question of whether or not Spring Valley should incorporate "ran the gamut" this past year, and the proposal was finally shelved due to too much opposition. There were people who said we have all we need here in Spring Valley, and what we don't have, the county will provide. This is true to some extent, but not entirely.

In all due fairness to the county officials, we must recognize that a lot of services have been provided. But it takes time to get some things and "a lot of running around" to get them. Sometimes delays are costly, not necessarily in a money sense of the word, but in LIFE. And many people with whom I have talked feel the county is delaying or setting aside some of the safety problems which confront children and motorists in the Spring Valley area.

## DOES COUNTY CARE?

The Spring Valley chamber of commerce quite frequently is asked (by letter or orally) to help with these problems of safety. At the last meeting of the chamber board of directors, first vice president Wally Johnson, who was acting president for the meeting (he also is chairman of the chamber's safety committee) read a letter from a resident of South Spring Valley asking for help in getting the county to put in a crosswalk in her area, as the crossing was dangerous. She said the County told her there were not enough children crossing the street to warrant a crosswalk, but she said she still feels the children's lives are in danger.

Wally Johnson also gave a list of various streets and intersections that are in dire need of improvement. He told of the need for more sidewalks and lights and that there are several intersections in the area where the boulevard stop signs are in the wrong place. He said the safety committee is preparing a letter to go to the County Board of Supervisors and the County Road Department listing the needs of the area and maps to enhance the letter.

## KIDS CAN HELP

But regardless of the safety measures needed, Johnson pointed out that a lot of the problems can be lessened if the children themselves will help. He said (and I will bear him out on this), that many of the children walking to school create their own safety problem because at various times they "fool around" with each other, some of them even running in the streets right in the line of traffic. Johnson said recently, a girl about seven years old, pretended she was going to run in front of his car and he had to stop and give her a lecture. I can believe that, because I have had the same experience.

**SAFETY.** We all have to pull together to create it. **JERSEYTES VISIT VALLEY'S CLARKS**

Mr. and Mrs. (Floyd and Gloria) Clark, over at 9092 Avocado St., have been entertaining Gloria's parents this past two weeks; parents being Mr. and Mrs. (Harold and Alice) Morgan from Eatontown, N.J. This is the Morgan's first visit to California, and they have been thrilled with our valley, even expressing a desire to return here and settle down. However, that will be impossible for a while, as Harold Morgan has a steady job with a trucking firm back east and will not retire for a few years. The Morgans are also visiting another daughter in the area, Mrs. Carol Canady of Lakeside.

Mr. and Mrs. Clark will soon be entertaining more out-of-town visitors, her uncle and aunt, Mr. and Mrs. (William and Violet) Letson of Eaton town, who will stop by en route to a California Army base where Letson will work as a civilian.

## VISITORS FROM AFAR HOSTED BY TRABERS

Mr. and Mrs. (Ray and Violet) Traber of 10158 Madrid Way, out in Casa de Oro, recently entertained a family from West Pakistan. They were Mr. and Mrs. (Kaeqhasme and Framjee) Captain and daughter, Spentha. This was the Pakistanians' first visit to the United States and to our valley. They came to the U.S. to enter their son, Farouk, in the Massachusetts Institute of Technology. They praised the people of the U.S. and the churches for the help they have given Pakistan. They were especially delighted with our valley, saying the climate is so much milder than that of Pakistan, where it gets real hot. Traber and Captain became acquainted two years ago through the American Field Service. Captain is a manufacturer of water glasses.
